Dear Neighbor:

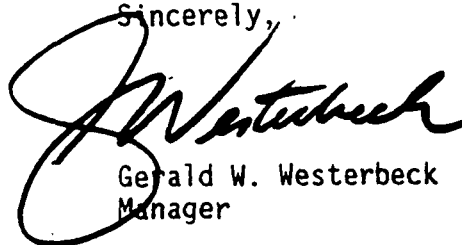

I would like to invite you to attend the next in a series of U.S. Department of Energy (DOE) community meetings about cleanup efforts at the Feed Materials Production Center (FMPC) at Fernald, Ohio. The meeting will be held on Tuesday evening, July 16, 1991, at the Meadowbrook Inn, 2398 Venice Boulevard, in Ross (a map is enclosed).

From 6:00 - 7:00 p.m., we will be available to answer individual questions prior to the meeting. The actual meeting will start at 7:00 p.m. The DOE will provide an update of FMPC activities since our March 1991 community meeting. The U.S. Environmental Protection Agency (EPA), the Ohio Environmental Protection Agency, and the local environmental group, Fernald Residents for Environment, Safety and Health, will make brief statements. A group question-and-answer session will follow the presentation allowing ample time to answer your questions.

As part of the recent dispute resolution between the DOE and the EPA, DOE has agreed to allocate \$150,000 to be used to conduct supplemental environmental projects at or in the vicinity of Fernald. The DOE welcomes your thoughts about how these funds should be used. You will find enclosed a form on which you can make your suggestions about this matter. The form can either be brought to the community meeting, where it will be collected, or you can mail it to the DOE at the address noted. We look forward to receiving and considering your comments.

I hope to see you on July 16 when we can share with you our progress toward environmental restoration.

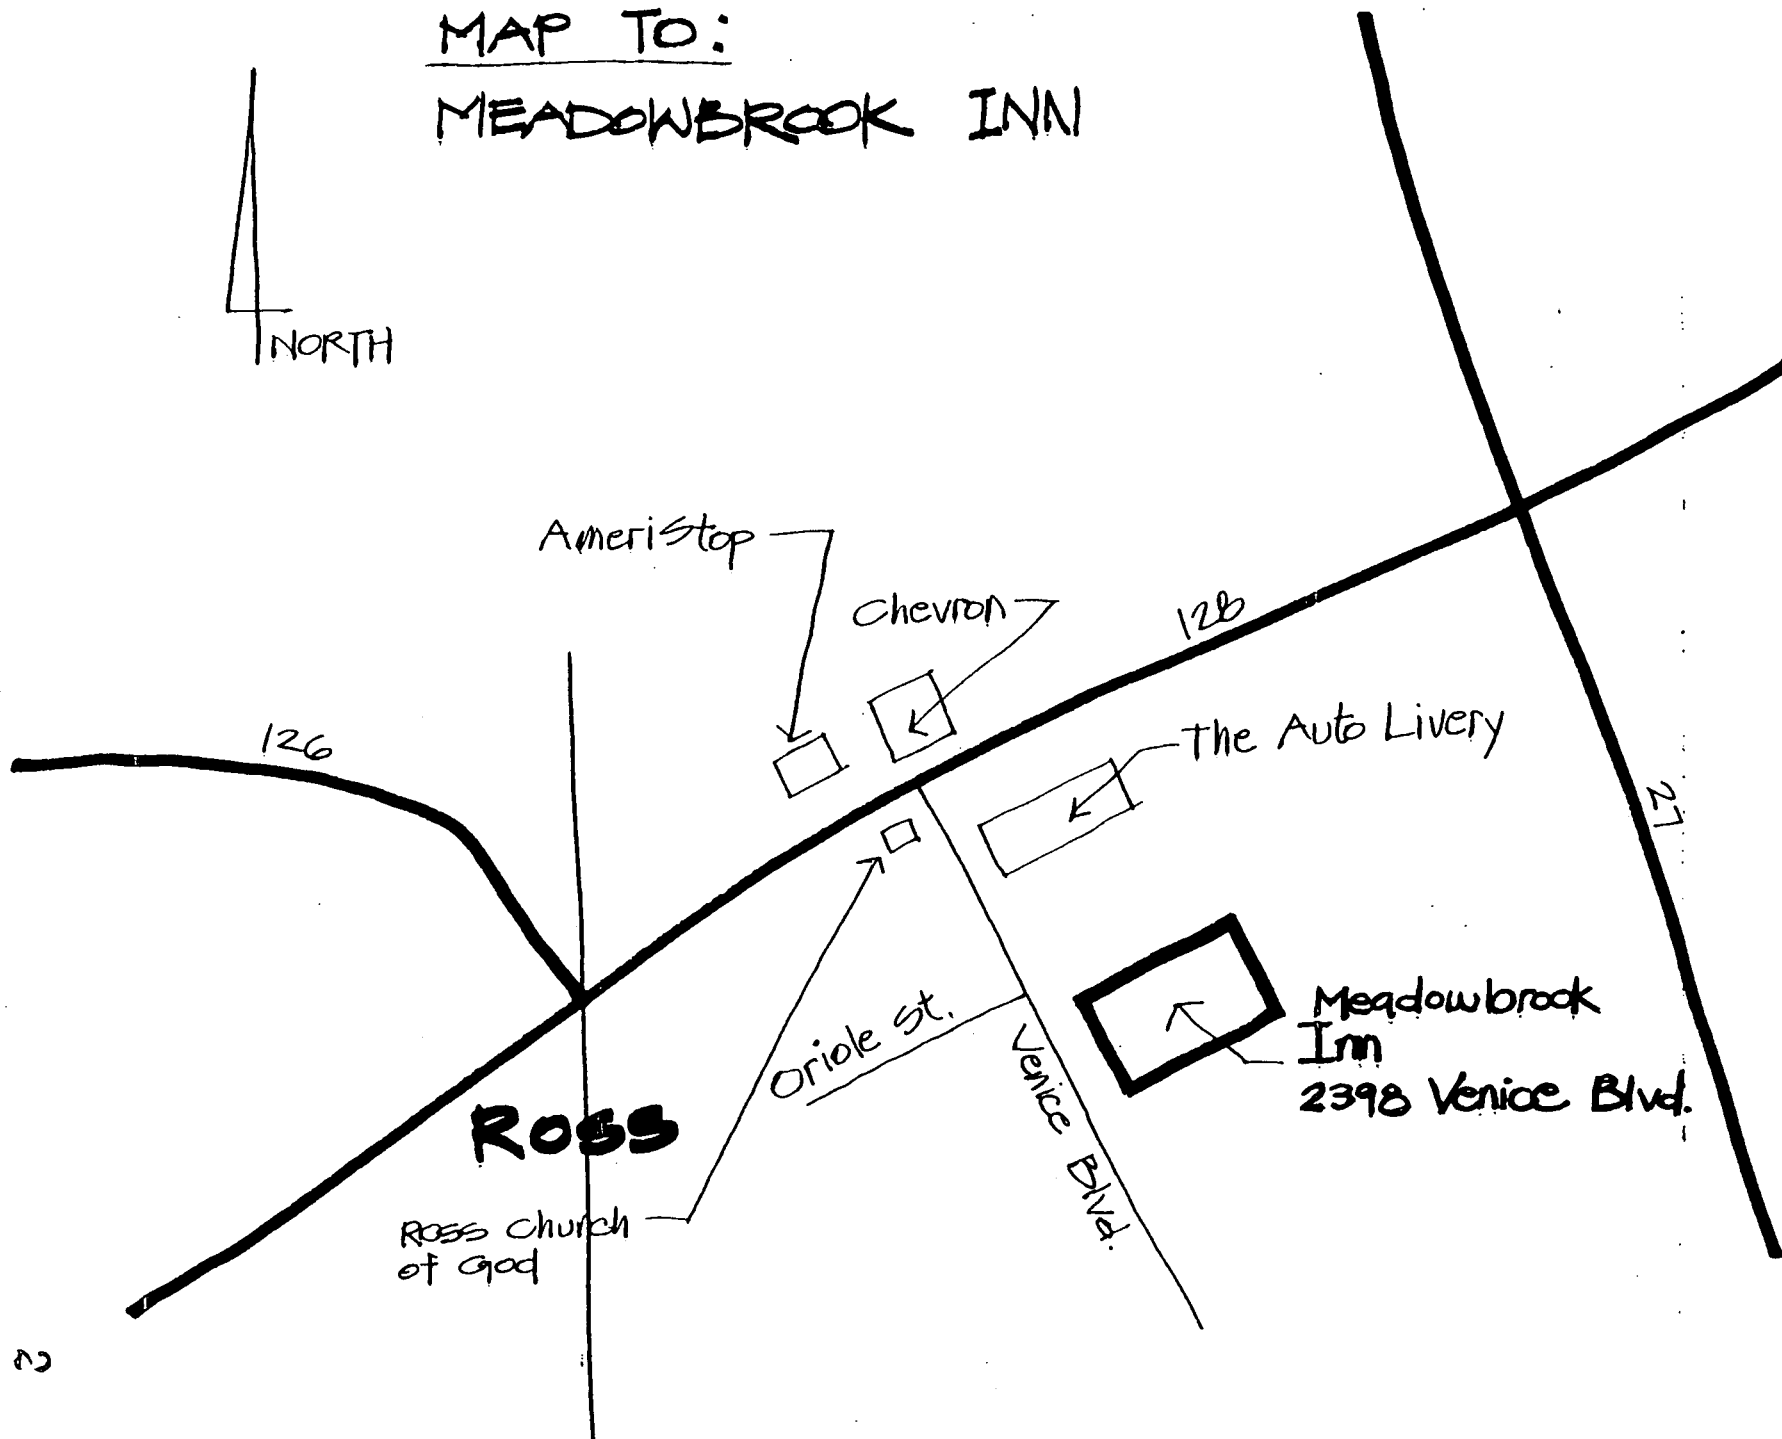

Sincerely,

Gerald W. Westerbeck  
Manager
